EDUCATION

Bachelor's in commerce (honours) , Delhi University,
Graduated: 2024

Senior Secondary Education
CBSE, 2021,

Secondary Education
CBSE, 2018

SKILLS

1. Web Development: HTML, CSS, JavaScript, Node.js, React, jQuery, Bootstrap
2. Databases: MongoDB, SQL
3. Version Control: GitHub

PROJECTS

1. Todo List Application: Developed a task management application with the following technologies:

- **Frontend:** React for UI, React-Toastify for notifications, Axios for API requests, React-Router-DOM for routing, and styled with Tailwind CSS.
- **Backend:** Built with Express.js, body-parser for request handling, JSON Web Token (JWT) for authentication, bcrypt for password hashing, Mongoose for database management, and dotenv for environment variables.

2. E-commerce Website: Built a comprehensive e-commerce platform using:

- **Frontend:** React for user interface, Axios for API requests, React-Toastify for notifications, and React-Router-DOM for routing.
- **Backend:** Node.js with Express.js, CORS for cross-origin request handling, body-parser for request handling, multer for file uploads, validator for input validation, Mongoose for database management, JWT for authentication, and dotenv for environment variables.

HOBBIES

1. Music: Enjoy listening to music and exploring different genres.
2. Gaming: Passionate about playing video games in my free time.
3. Cooking: Love experimenting with new recipes and cuisines.
